A PRIMER OF Mayan Hieroglyphics

BY DANIEL G. BRINTON, A.M., M.D., LL.D., Sc.D.,

*Professor of American Archæology and Linguistics in the University of Pennsylvania;
President of the American Association for the Advancement of Science, etc., etc.*

8vo, pp. 153. With 84 Illustrations.

VOLUME III, No. 2, OF THE PUBLICATIONS OF THE UNIVERSITY OF PENNSYLVANIA, SERIES IN PHILOLOGY LITERATURE AND ARCHÆOLOGY.

PRICE - \$1.20.

In this work the author aims "to supply the learner with the elements necessary for a study of the native hieroglyphic writing of Central America."

After an Introduction describing the extant Maya Manuscripts and the methods for interpreting them which have been proposed, the author proceeds to a careful analysis of their contents as divided into three groups:—

1st. The Mathematical Elements; in which part are explained the Mayan numeral system, the different calendars in use, the astronomical knowledge of the Mayas, and the signs used in their arithmetical calculations.

2d. The Pictorial Elements. This portion begins with a brief description of the religion of the ancient Mayas and the gods they worshiped. The pictorial representations of these divinities are then identified; after which the quadrupeds, birds, reptiles, etc., depicted in the manuscripts are enumerated.

3d. The Graphic Elements, or Hieroglyphics proper. A large number of these are analyzed, the directions in which they are to be read explained, and those for the days, months, deities, cardinal points, constellations, etc., are discussed. A number of new explanations are proposed.

The volume concludes with seventeen "Specimens of Texts," drawn from different regions once in possession of the ancient Mayas, in order to illustrate the various forms of their writing. Several of these have not heretofore been published. They are copied from the manuscripts, inscribed stones, and painted pottery.

The illustrations have been made under the immediate supervision of the author, and include all the graphic forms positively recognized by others or himself, as well as many still of doubtful purport.
